

**REQUEST FOR INFORMATION / SUBMISSION OF
PRESENTATION/BROCHURES OF EQUIPMENT**

Regarding planned procurement of :

**3D cameras for delivery to Department of burns, Section
for plastic surgery, at Helse Bergen HF**

Case No. 2019/504

1 Introduction

Sykehusinnkjøp HF has, on behalf of Helse Bergen HF, Department of burns, Section for plastic surgery, at Haukeland universitetssykehus, intended to acquire two 3D cameras during autumn 2019. One 3D camera will be used in facial and breast surgery, and the other 3D camera will be used in burn injury and scar treatment.

This is a procurement project under the Public Procurement Regulations Part 1.

In connection with market research and to ensure that our competition documents in the upcoming procurement process lead us to receive offers that, as far as possible, protect Helse Bergen's needs, we wish to receive a presentation of information / brochures describing their equipment. In the end, we will consider inviting providers to present their product closer.

2 Detailed description of needs

We wish you to present your 3D cameras, preferably supported by brochures. The purpose of the new equipment is visualization of changes, planning of reconstruction and volume measurements in operational planning, as well as documentation of the treatment effect.

The purpose and some features of the equipment: 3D cameras for use in facial and breast surgery as well as burn surgery and scar treatment:

- Handheld
- Related software for visualization and volume calculations
- View volume in the skin area, down to 1 mm³
- 3D simulation through software
- Flash solutions, resolution, color rendering
- Quality
- Must be able to document clinical use
- Windows 10
- Storage solutions

3 Supplier Presentations

The supplier must deliver the presentation via the Merccell communication module. The information will be treated as confidential and will only be used to improve our competition documents for the future purchase. Sykehusinnkjøp HF together with subject representatives from Helse Bergen HF will consider the need to invite suppliers to deliver cameras for testing.

4 Administrative

4.1 Deadline for submission of information / presentation

Deadline for submission of presentation is set to August 19, 2019.

4.2 Questions

Any questions can be sent via the communication module in Merccell. Due to vacation, questions will not be answered during the period July 8, 2019 to August 12, 2019.
