WENROSS HOLDINGS Pty Ltd  
Trading as Creative Advanced Build  
**INCORPORATING the MANSELL INFANT RETRIEVAL SYSTEM**

#### TECHNICAL ADVISORY NOTE

Number 17 26 July 2016

### TITLE: NeoDeck – Interfacing the Mansell Infant Retrieval System with the Stryker Pro Ambulance Stretcher

This Advisory Note is intended for all Mansell Infant Retrieval System users.

Wenross Holdings Pty Ltd (BAC) wishes to advise all customers that the NeoDeck is now available for purchase. The NeoDeck, as explained previously, is a new interface device that allows transportation of the Mansell Infant Retrieval System (MIRS) on the new Stryker Pro Stretcher.

Please see the attached **NeoDeck Brochure**.

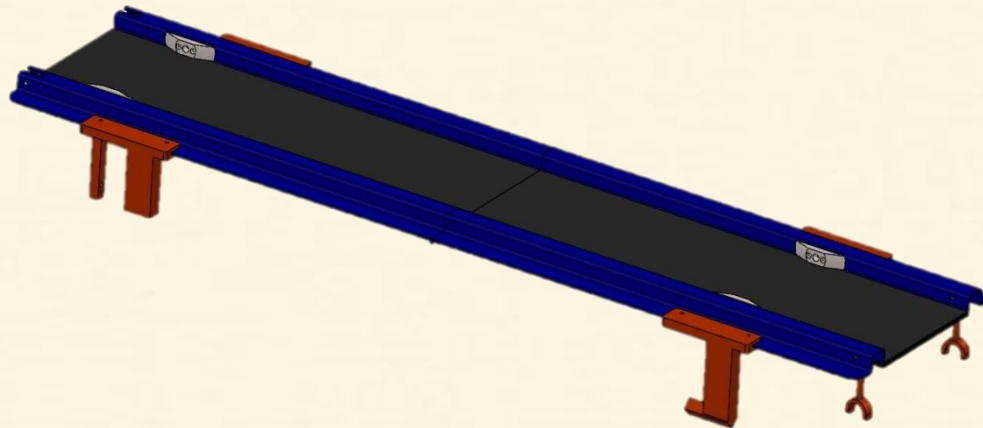

If you would like to request a quote or require further information, please call Dr. John Grant-Thomson on 0419 665 341 or contact him using the above email.

Dr John Grant-Thomson  
Consultant

Infant Retrieval Systems

NOTE: If you were forwarded this note and would like to be added to our email list or would like to nominate someone else to add, please request this via email.

# NeoDeck

- Designed to seamlessly interface with most common stretcher systems
- Provides a LifePort mounting platform
- Folding and non-folding options available
- Lightweight
- High strength

## Technical Specifications:

- Length – 1700mm
- Width – 414mm
- Weight – 9.7kg
- Complies with AS/NZS 4535:1999 Ambulance Restraint Systems
