1 INTRODUCTION

Changes to the general contractual wording shall be set out in Appendix 8 unless the general contractual wording refers such changes to different Appendices.

Changes can be made to all the clauses in the Agreement, even where there is no clear reference to the fact that changes can be agreed. Changes to the contractual wording shall be specified here so that the wording of the general contractual wording remains unchanged. It must be stated clearly and unequivocally which clause or clauses in the Agreement have been changed and the results of the change.

The Contractor should, however, be aware of the fact that deviations, reservations or other changes to the Agreement in connection with the submission of a tender may result in rejection of the tender by the Customer.

Text inserted by the Contractor should be marked with blue font.

Note: the remaining descriptions of this Appendix will be clarified during the negotiation phase.
