Important information relating to the Contract Notice of Procurement No. 112356 Mobile Fuel Distribution and Storage System

Due to technical difficulties with the transition to eForms, the Contract Notice gives misleading information on the areas clarified below. Please confer the Invitation to pre-qualification for more information on each subject.

The information is clarified as follows:

1. The procurement is structured by two contracts; a purchase Contract governing the purchase of the system and any subsystems, and a Contractor Logistics Support- Agreement supporting the materiel purchased under the Purchase Contract in its lifetime.
2. The purchase Contract structured as a supply contract, while the Contractor Logistics Support- Agreement, dependent on the ratio between supply and services, will be structured either as a service or supply contract.
3. The procurement is subject to the rejection grounds of Forskrift om forsvars- og sikkerhetsanskaffelser (FOSA) §§11-12 and following. The rejection grounds referred to in the Notice as not applicable, are those of the European Single Procurement Document (ESPD). The ESPD is not applicable as the procurement is regulated by FOSA and not Forskrift om offentlige anskaffelser (FOA).
4. The applicable pre-qualification criteria are listed in the Invitation to pre-qualification. The ones listed as not applicable in the Notice, are those of the ESPD. The ESPD is not applicable as the procurement is regulated by FOSA and not FOA.
5. The Norwegian Defence Materiel Agency has reserved its right to reduce the number of otherwise pre-qualified candidates in accordance with FOSA §8-6. The criteria for down selection etc. is addressed in the Invitation to pre-qualification.
6. The Purchase Contract is subject to the options and number of renewals' listed in the Invitation to pre-qualification. The CLS-Agreement is subject to the extensions described in the Invitation to pre-qualification.
